SUMMARY

Backend Engineer with 2+ years of experience designing, developing, and maintaining high-performance backend systems and REST APIs using Node.js, Express.js, and Laravel/Lumen. Proven track record of optimizing API performance, improving system scalability, and supporting production applications handling 10,000+ daily requests. Experienced in API integration, database optimization, cloud deployment, Docker containerization, Kubernetes orchestration, and Agile software development.

PROFESSIONAL EXPERIENCE

Backend Engineer

Media Meter Inc. | Jan 2025 – Present

- Optimized Fast API services handling 10,000+ daily requests, improving response times by 30–40%
- Built and maintained 15+ production REST APIs supporting core system functionality
- Refactored monolithic services into modular architecture for scalability and maintainability
- Conducted peer code reviews and supported junior developers on backend tasks
- Reduced production incident resolution time to under 2 hours
- Supported Docker + Kubernetes (K3s) deployment workflows

Technologies: Python (Fast API), Microservice, Laravel/Lumen, Swagger/Open API, Redis, Docker, AWS, Kubernetes

Junior Backend Developer

Media Meter Inc. | Jan 2024 – Dec 2024

- Improved system performance by ~25% through backend optimization
- Developed REST APIs for production systems and feature delivery
- Resolved production issues and improved system stability
- Refactored legacy codebases for maintainability and scalability

Technologies: Laravel/Lumen, Swagger/Open API, Redis, Docker

Junior SQL Developer

We Support Inc. | Nov 2022 – Jun 2023

- Developed optimized SQL queries for reporting and data processing
- Supported Unit Testing (UT) and System Integration Testing (SIT)
- Maintained documentation for data workflows

Technologies: SQL, HiveQL, Talend

TECHNICAL SKILLS

Language: JavaScript, TypeScript, PHP, SQL
Backend Development: Node.js, Express.js, Python, Laravel, Lumen
API Development: API Development: REST API Development, API Integration, Swagger/Open API JWT Authentication
Databases: MySQL, Redis, Database Optimization, Query Optimization
Cloud & DevOps: AWS S3, Docker, Kubernetes, CI/CD Pipelines
Software Engineering: Backend Development Performance Tuning, Agile Development, Production Support
Tools: Git, GitHub, Postman, Swagger/Open API

EDUCATION

Bachelor of Science in Information Technology

Quezon City University | 2018 – 2022
